## Profile Summary

As a Computer Science graduate skilled in JavaScript, React.js, and front-end development, I aim to create responsive, user-friendly web applications. Eager to contribute creativity, technical expertise, and a collaborative spirit to innovative projects in a dynamic organization.

---

## Skills

- Html
  - Css
  - Javascript
  - TailwindCss
  - Reactjs
  - Figma
  - Git and Github
  - UI/UX desgin
- 

## Projects

### **Tasks-to-do:** *(Sep 2024 - Oct 2024)*

A task management app built with React and Vite, styled using Tailwind CSS. It features local storage to persist tasks across sessions, a motivational quotes API, and a stopwatch for time management.

### **Infodaily:** *(Ongoing)*

A news application using API integration to display news by category, language, and region. The project uses React Router for navigation and is fully responsive.

### **Portfolio Website:** *(Ongoing)*

An ongoing portfolio showcasing my skills and projects. Initially built with CSS3, it now uses Tailwind CSS and React Router for navigation between sections.

### **Frontend-Challenges:** *(Ongoing)*

A collection of frontend projects demonstrating various web development challenges, showcasing my ability to take on different challenges.
