Profile Summary

Enthusiastic front-end developer with expertise in React, JavaScript, and Tailwind CSS. Skilled at transforming creative designs into functional, responsive interfaces. Passionate about learning new technologies and collaborating on impactful projects.

Skills

- HTML, CSS, JavaScript, React.js, Tailwind CSS
- Node.js, SQL, MongoDB, Postman
- Figma (Design and Prototyping)
- Git, GitHub (Version Control)

Projects

- **Tasks-to-do:** A task management app with React, Vite, and Tailwind CSS. Features local storage, a motivational quotes API, and a stopwatch.
- **Task-Management:** A simple and efficient task management app built with React, JavaScript, and Tailwind CSS. The app allows you to add, delete, and search for tasks.
- **Portfolio Website:** A dynamic website showcasing skills and projects. Built with Tailwind CSS and React Router.
- **WeatherApp:** A weather app built with React, Vite, and Tailwind CSS, fetching real-time weather data via API.

Certifications

- JavaScript (Basic) - HackerRank
- JavaScript and Data Structures - freeCodeCamp
- Postman API Fundamentals - Postman
- Frontend Development Libraries - freeCodeCamp
- Responsive Web Design - freeCodeCamp
- Software Testing - NPTEL

Education

Bachelor of Science (B.Sc) in Computer Science

CGPA: 8.44/10

SIES College of Arts, Science & Commerce

Coursework: Web Development, Internet Security (INS), Database Management Systems (DBMS), Ethical Hacking, Game Programming, Software Testing, Data Structures and Algorithms (DSA), Internet of Things (IoT)

Hobbies

Drawing, sketching, and graphic design – creative pursuits that fuel my passion for aesthetics in technology.
