Pratham Madhukar Mhavale

Mumbai, Maharashtra | prathammhavale38@gmail.com | Linkedin | Github

Profile Summary

I am an enthusiastic and detail-oriented front-end developer with expertise in ReactJS, JavaScript, and Tailwind CSS. With a creative mindset, I excel at transforming designs into fully functional, responsive websites that offer an enhanced user experience. I am adaptable, continuously learning and staying updated with new technologies, and thrive in collaborative environments. Passionate about web development, I focus on creating user-friendly and visually appealing digital solutions. My ability to solve complex problems and manage projects efficiently makes me a strong contributor to impactful web development projects.

Skills

- HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- · Figma, Webflow

- Node.js, SQL, MongoDB, Postman
- Git, GitHub

Projects

- RecipeBook: A recipe app built with React, Vite, and Tailwind CSS. The app features a collection of pre-built recipes, and users can create their own recipes, delete them, and save their favorite recipes. Users can also search through recipes, and the app is fully responsive with an option to change the theme. It offers a clean and simple UI for an enhanced user experience.
- <u>Task-Management</u>: A simple and efficient task management app built with React, JavaScript, and Tailwind CSS. The app allows you to add, delete, and search for tasks, and includes clean animations for a better user experience.
- <u>Portfolio Website</u>: A dynamic portfolio website built with ReactJS, Vite, and Tailwind CSS, designed to showcase who I am, my skills, and the projects I've worked on. The website features a fully responsive design, a clean and modern aesthetic, and smooth animations, with React Router for easy navigation between different sections..
- <u>WeatherApp</u>: A fully responsive weather app built with ReactJS, Vite, and Tailwind CSS, where you can search your city and get information like temperature, wind speed, latitude, longitude, and much more. The app features a simple white theme for a clean and minimalistic design, fetching real-time data via an API.

Certifications

JavaScript (Basic) – HackerRank | Postman API Fundamentals – Postman
Responsive Web Design – freeCodeCamp | JavaScript and Data Structures – freeCodeCamp
Frontend Development Libraries – freeCodeCamp | Software Testing - NPTEL
Webflow 101 - Webflow University | Webflow Layout Level 1 - Webflow University

Education

Bachelor of Science (B.Sc) in Computer Science

CGPA: 8.44/10

SIES College of Arts, Science & Commerce

Coursework: Web Development, Internet Security (INS), Database Management Systems (DBMS), Ethical Hacking, Game Programming, Software Testing, Data Structures and Algorithms (DSA), Internet of Things (IoT)

Hobbies

In my free time, I enjoy drawing, sketching, and graphic design, which fuel my passion for blending creativity with technology. These hobbies help me develop skills in creating visually appealing and user-friendly digital solutions. I focus on enhancing user experience by ensuring designs are both functional and aesthetically pleasing. My creative pursuits inspire my approach to web development and design.
